## Fixed Speed Heat Pump

**9000 - 36000 BTU**

Recognized as a world leader, GREE has earned this title with its advanced technology and innovation. Research and development are at the heart of the company's operations: GREE designs, develops and manufactures the various components of its products and thanks to specialized research institutes and product development centers, GREE is able to ensure the quality, consistency, reliability and energy efficiency of each of its products.

GREE LOMO making your Home or Working Space Comfortable, Reliable and complements any Modern Design Décor.

All GREE products are handled by a network of certified contractors with the required technical knowledge to assist you in the buying process, installation, technical after sales advice and repairs according to industry standards.

### LOMO NON INVERTER FEATURES

- **0.5w Standby:** Innovative Power Design ensures only 0.5 watt Standby and a wider PCB Voltage between 85-265 volt.
- **Intelligent Auto Restart:** When Power resumes after failure, Units will Restart at last entered Function setting.
- **Low Voltage Start Up:** Units can Operate from 170 to 265 volts Power Supply, making it suitable for unstable Power Supply Areas.
- **Powerful Cooling:** As much as 20% Higher
- **High Density Filters:** High density Filters filter more than normal filters, preventing tiny particles such as Dust and Pollen to be filtered out.
- **Fire Proof PCB Enclosure:** PCB Board are enclosed in a fire proof enclosure to prevent fire damage to surrounding components beyond the Unit.

### THE GREE DIFFERENCE

- At GREE, we deliver solutions born from the latest innovations and technology and with your comfort in mind.
- We believe it's our combination of intensive Research and Development that inspires GREE to do the right thing as a global manufacturing company that makes GREE stand out from the competition.
- GREE is very passionate about customer satisfaction, service and after sales service.
